Quick Guide

N2IP4WSD

Precautions

Fully understand this document before using this device, and strictly observe rules in this document when using this device. If you install this device in public places, provide the tip "You have entered the area of electronic surveillance" in an eye-catching place. Failure to correctly use electrical products may cause fire and severe injuries.

⚠ WARNING	It alerts you to moderate dangers which, if not avoided, may cause minor or moderate injuries.
⚠ CAUTION	It alerts you to risks. Neglect of these risks may cause device damage, data loss, device performance deterioration, or unpredictable results.
▣ NOTE	It provides additional information.

⚠ WARNING

• Strictly observe installation requirements when installing the device. The manufacturer shall not be held responsible for device damage caused by users' non-conformance to these requirements.
• Strictly conform to local electrical safety standards and use power adapters that are marked with the LPS standard when installing and using this device. Otherwise, this device may be damaged.
• Use accessories delivered with this device. The voltage must meet input voltage requirements for this device.
• If this device is installed in places with unsteady voltage, ground this device to discharge high energy such as electrical surges in order to prevent the power supply from burning out.
• When this device is in use, ensure that no water or any liquid flows into the device. If water or liquid unexpectedly flows into the device, immediately power off the device and disconnect all cables (such as power cables and network cables) from this device.
• Do not focus strong light (such as lighted bulbs or sunlight) on this device. Otherwise, the service life of the image sensor may be shortened.
• If this device is installed in places where thunder and lightning frequently occur, ground the device nearby to discharge high energy such as thunder strikes in order to prevent device damage.

⚠ CAUTION

• Avoid heavy loads, intensive shakes, and soaking to prevent damages during transportation and storage. The warranty does not cover any device damage that is caused during secondary packaging and transportation after the original packaging is taken apart.
• Protect this device from fall-down and intensive strikes, keep the device away from magnetic field interference, and do not install the device in places with shaking surfaces or under shocks.
• Clean the device with a soft dry cloth. For stubborn dirt, dip the cloth into slight neutral cleanser, gently wipe the dirt with the cloth, and then dry the device.
• Do not jam the ventilation opening. Follow the installation instructions provided in this document when installing the device.
• Keep the device away from heat sources such as radiators, electric heaters, or other heat equipment.
• Keep the device away from moist, dusty, extremely hot or cold places, or places with strong electric radiation.
• If the device is installed outdoors, take insect- and moisture-proof measures to avoid circuit board corrosion that can affect monitoring.
• Remove the power plug if the device is idle for a long time.

Special Announcement

• All complete products sold by the manufacturer are delivered along with nameplates, quick setup guide and accessories after strict inspection. The manufacturer shall not be held responsible for counterfeit products.
• The manufacturer will update this manual according to product function enhancement or changes and regularly update the software and hardware described in this manual. Update information will be added to new versions of this manual without prior notice.
• This manual may contain misprints, technology information that is not accurate enough, or product function and operation description that is slightly inconsistent with the actual product, the final interpretation of company is as a standard.
• This manual is only for reference and does not ensure that the information is totally consistent with the actual product. For consistency, see the actual product.

▣ NOTE

For more information, please refer to website.
1 Open Package Examination

Open the package, check the appearance of product for no obvious damage, and confirm the item list for table 1-1 is consistent.

Table 1-1 Packing list

Component	Quantity	Remark
Mini Dome Network Camera	1	
Quick Setup Guide	1	
L hexagonal wrench 80×25mm	1	
Installation location sticker	1	
Stainless self-tapping screw PA 4.0×30mm	2	
Swell plastic button φ5.6×29mm	2	

2 Device Structure

2.1 Device Ports

▣ NOTE
Different devices may have different device ports, please refer to the actual product.

Network cable

Video Output · SD Card Slot · Reset Button · Alarm in/out · Power Supply · Audio in/out · Over-line Buckle · Network Access Port

Table 2-1 Interface of camera

Port name		Description	Remark
Video Output		Analog video output	
SD card slot		Insert SD card	
Reset button		Restore the camera to the factory settings by pressing and holding this button for more than five seconds.	
4 PIN terminal block (applied for alarm function)	OA	Alarm out A	Applied for inner line dome camera
	OB	Alarm out B	
	IN	Alarm in	
	G	Ground	
5 PIN terminal block (applied for audio function and power)	+	12V Positive	
	−	12V Negative	
	Audio in	Receive an analog audio signal from devices such as a sound pickup device.	
	Audio out	Connect to an external audio device such as a speaker.	
	G	Ground	
Over-line buckle		Fixed the internal line of device.	
Network access port		Connect to a standard Ethernet cable.	

▣ NOTE
Different devices may have different device ports, please refer to the actual product.

Figure2-2 Multi-head cable

Port · Audio Output · Audio Input · DC12V · Reset

Table 2-2 Multi-head cable description

ID	Core	Description	Remark
1	Network access port	Connects to a standard Ethernet cable or PoE . The green light is on, the network connection is normal; the yellow light flashes when the data is transmitted. Some models maybe not have the lights, please refer to actual product.	Support PoE supply.
2	Audio output	Connects to an external audio device such as a speaker.	Applied for camera with audio function
3	Audio input port	Receives an analog audio signal from devices such as a sound pickup device.	
4	Reset button	Long press the reset button 5 seconds to restore the original settings.	
5	Power supply (DC 12V)	Connects to a 12V direct current (DC) ower supply.	
6	G	Alarm output COM	Applied for alarm function
	OUT	Alarm output terminal	
	G	Alarm input COM	
	IN	Alarm input terminal	

2.2 Camera Dimensions

▣ NOTE

Different devices may have different dimensions, please refer to the actual product.

WARNING

To avoid moisture influence, install the dome cover at least half an hour after the camera is installed and powered on.

The mini dome camera can be installed in the ceiling , wall, wall bracket or ceiling bracket. This section describes how to install the camera in the ceiling.
Installation Steps:

Step 1 Stick the Installation location sticker which is in accessory package on the ceiling or wall, Drill two holes based on the marks on the sticker. Drive the swell plastic buttons into the holes.

Step 2 Use the wrench in the accessory package to unscrew the four screws on the dome cover. The camera is opened, as shown in figure 3-1.

Figure 3-1 Opening camera   **Figure 3-2** Installing camera

Swell plastic buttons

Step 3 Fetch two black self-tapping screws from the accessory package. Then fix the screws to fasten the camera on the ceiling as shown in figure 3-2.
Step 4 Connect the network access port and power supply of the multi-head cable.(the inner -line cameras need to fasten all lines to correspond terminal as shown in figure 2-1)

NOTE

• There are two outlet mode of cable, for the top outlet mode, user should drill the hole at first for threading cable.
• The side outlet mode that the installation sticker's gap should align the outlet rubber stopper.
Step 6 Connect the camera to monitor , loosen the screws of support frame, as shown in figure 3-3. Adjust the three axes to focus image on monitoring scenarios. Tighten the screws to finish adjustment.

4.2 Modify IP address

Choose **Configuration** > **Device** > **Local Network**, the **Local Network** page is displayed.

Input the IP address in the IP Address box and click **Apply** as shown in figure 4-3.

After the IP address is set successfully, please use the new IP address to login the Web interface.

Figure 4-3 Local Network

Local Network

4.3 Browsing Video

To ensure the real-time video can be played properly, you must perform the following operation when you login the web for the first time:
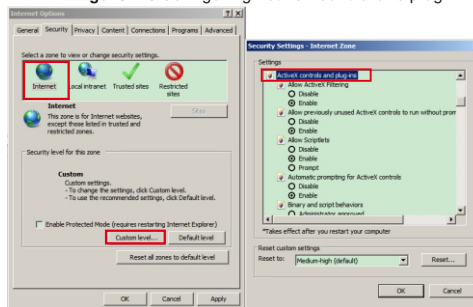

Step 1 The Internet Explorer. **Choose Tools** > **Internet options** > **Security** > **Trusted sites** > **Sites**, in the display dialog box, click **Add**, as shown in figure 4-4.

Figure 4-4 Adding a trusted site

Step 2 In the Internet Explorer, choose **Tool** > **Internet Options** > **Security** > **Customer level**, and set **Download unsigned ActiveX control** and **initialize and script ActiveX controls not marked as safe for scripting under ActiveX controls and plug-ins to enable**, as shown in figure 4-5.

**Figure 4-5** Configuring ActiveX control and plug-in

Step 3 Download and install the player control as prompted.

NOTE

If the repair tips displayed when installing the control , please ignore the prompt, and continue the installation, close the Web page during installing. Then login the page again.

To browse a real-time video, login the device and click **Live Video**. The Live Video page is displayed, as shown in figure 4-6.
Figure 4-6 Live Video

4.4 Intelligent Analysis

At "Configuration > Intelligent Analysis" interface, user can set the parameters of Perimeter, Single Virtual Fence, Double Virtual Fence, as shown in figure 4-7 .

Figure 4-7 Intelligent Analysis

4.5 Alarm Configuration

NOTE

Partial camera do not support alarm, this section do not apply.

Alarm input and Alarm output connection:

Step1 Connect alarm input device to Alarm IN0 and Alarm COM0 of multi-head cable.

Step2 Connect alarm output device to Alarm OUT1 and Alarm COM1 of multi-head cable, alarm output interface can connect to normal open device only.

Step3 Log in Web, Choose **Configuration> Alarm > Alarm output**, set the parameters as shown in figure 4-8.

Step4 Choose **Configuration > Alarm > I/O Alarm Linkage** , enable the I/O Alarm and set the parameters of Schedule Setting.
